He stated the total savings was \$77,572.17 with the interest rate of 2.9% instead of 3% as formerly figured.

Council Member Abrego made the motion to approve an ordinance by the City Council of the City of Aransas Pass, Texas authorizing the issuance of "City of Aransas Pass, Texas General Obligation Refunding Bonds, Series 2008", levying an annual ad valorem tax, within the limitations prescribed by law, for the payment of the bonds; prescribing the form, terms, conditions, and resolving other matters incident and related to the issuance, sale, and delivery of the bonds; authorizing the execution of a paying agent/registrar agreement, a purchase and investment letter, and an escrow deposit letter; complying with the requirements of the blanket letter of representations with the depository trust company, and providing an effective date. ITEM 5. CONSIDER AND ACT ON REQUEST FROM GORDON CRAIG TO REDUCE STREET ASSESSMENTS FOR LOTS 28-32, BLOCK 555, CORNER OF ARCH AND E. SPENCER.

Gordan Craig stated the property was in disarray and had no maintenance in many years. He stated he was asking the Council to waive the interest on the street assessments, not the principal.

Council Member Hametner asked Mr. Craig did he have a contract on the property?

Mr. Craig stated yes, a verbal contract.

Council Member Hametner asked Mr. Craig was he going (to purchase the property) through a title company?

Mr. Craig stated yes.

Council Member Mayer seconded the motion and the motion carried unanimously.

ITEM 6. PRESENTATION BY MIKE SULLINGER PERTAINING TO THE MARINA COMPLEX MASTER PLAN.

Mike Sullinger, project manager for the Marina development project, stated he had the help of Dave Sullivan with Naismith Engineering and Harlan Roberts getting the maps (of Conn Brown Harbor) together to move the project forward. Mr. Sullinger stated the recent map for the development of the Harbor had started in 1999 or 2000 with then City Manager Rick Ewaniszyk and leaders of the City, seeing the shrimping industry waning, wanted to develop the Harbor to keep revenue coming into the City. He stated after researching the Clear Lake/Kemah area, the information was given to Naismith Engineering and Naismith had been working on the maps since then. He stated this map was the closest to the original map Naismith had developed. He stated developers had changed it time to time.

Mr. Sullinger stated the results of the charrette on the Harbor had been taken into consideration and everything that was in the final charrette report and the Council's January 8, 2008 vision statement was in the Marina development project map. He stated everything that had derailed the progress of the development of the Harbor was taken into consideration. The Seaman's Memorial, the shrimping industry, the bulkheads, the docks, even the local yacht club was taken into consideration for the project. He stated the project plans would not suit everyone, there would be dissenters but the plan was to benefit the citizens, not just a few people.

Mr. Sullinger stated the boat slips were planned for the west side of the Harbor because the City already has the Corps of Engineers permit for that location in the Harbor and it would take three to five years and another \$500,000.00 to obtain a permit for another location. He stated the utilities were already in place and there was good bulkheading on the west side. Mr. Sullinger stated the marina would be a catalyst for future growth.

Mr. Sullinger discussed the monetary value of the Harbor, the Harbor's potential value and the added tax base the Harbor's industry and businesses would give the City. He stated the plan was to build a world-class marina with amenities that would make Aransas Pass a destination city.

Mayor Knight asked Mr. Sullinger had he made provisions for the City dock?

Mr. Sullinger stated yes and the dock could be expanded with a pump-out station.

Council Member Abrego asked Mr. Sullinger what about parking?

Mr. Sullinger stated every facility requires a certain number of parking spaces and the plan includes approximately 50% more parking spaces than required for the marina. Discussion followed regarding parking for other areas of the Harbor and parking for the potential businesses that would be located in each area. He stated if parking became a problem, one solution would be to run shuttles.

Council Member Hametner stated he had been looking at the plans for five to six months and had confidence in our Engineer, Project Manager and City Manager, that they have put together the best possible plan they could have for the benefit of the City and recommend the adoption of the Resolution.

Mayor Knight stated this was the first plan he totally agreed with. He stated the plan did not interfere with the shrimping industry or the Memorial Tower and expands Harbor Park. He stated the plan addressed everything. He stated at the present time, the Harbor revenues were \$7,962.58 per year, on property that was much more valuable than that. He stated one of the problems the City had was relying on developers coming to the City and telling the City what they could do. He stated this time, the City has a plan and will ask the developer if they can follow the City's plan.

Mr. Sullinger stated the next step was to put out Requests for Proposals (RFP) that would be brought to the Council.

Discussion regarding a new City dock size, the need for a boat haul-out facility and street closures followed.

ITEM 11. CONSIDER AND ACT ON SECOND AMENDMENT TO PROPERTY DISPOSITION CONTRACT, HB 1740 PROPERTY, ARANSAS, SAN PATRICIO AND NUECES COUNTIES, TEXAS.

City Attorney Allen Lawrence stated this was the second amendment to the GLO contract which permits the City to mortgage the property back to the state in lieu of having to post a performance bond or a letter of credit which would save the City \$100,000.00. He stated the City had three years to mediate or take care of all the environmental problems on the properties, although there was a clause for an extension. He stated as the properties are cleaned up, the contract provides for partial release of the lien. He stated the harbor area must be cleaned up before anything else can be released. He stated there were two different liens, the LWR and airport, and the harbor

He stated Ingleside Council Member Stewart Wilson and Oscar Adame, Ingleside Parks and Recreation Director were in the audience.

The City Manager stated Aransas Pass would reduce the admission fee to the Aquatics Center for Ingleside resident from \$4.00 to \$3.00 for children and from \$5.00 to \$4.00 for adults. He stated these were the same rates Aransas Pass residents paid. He stated Ingleside would reduce the admission fee to the Skate Park from \$4.00 to \$2.00 for Aransas Pass residents, which was the Ingleside residents' rate. He stated the APMDD was in favor of the proposal and if the Council was favorable, he would bring an interlocal agreement back to the Council.

Ingleside Council Member Wilson stated he was glad to see the cities working together.

Council Member Hametner stated he agreed, it was time the City of Aransas Pass and the City of Ingleside cooperated in every way to provide better amenities to the citizens and keep their taxes down.

Ingleside Park Director Oscar Adame stated the presentation for an interlocal agreement would be on the Ingleside's agenda February 26 (2008) and Ingleside City Manager Jim Gray would contact Mr. Ginter.
